

HS-1100

corded call center earset

The ideal work-tool for the modern office and call center

PRODUCT DESCRIPTION:

The HS-1100 is the only earset model in the hameco corded headset family. During development our goal was to create a headset which provides any call center or office environment with clear communication – without compromising quality. The product's features include crystal clear audio, a noise-cancelling microphone and hearing protection. The ear tip is available in three sizes. The microphone is protected by a foam cover, and the microphone boom arm and earband are adjustable. The QD/jack found on the headset's cord can be connected to any landline or mobile phone, PC or laptop using the extension cable. The HS-1100 is a lightweight and comfortable earset which can be used continuously for up to 8 hours.

Logistical information
