

HS-2010

corded call center headsets

Call center headsets for those who want something more and better

PRODUCT DESCRIPTION:

The most sought-after premium USB model in the hameco corded headset family (compatible with MS Lync, Skype for Business). The headset was developed with those who not only want a tool for work, but also for entertainment in mind. The HS-2040 is not only a trustworthy partner in an office or call center environment, but also at home while listening to music. The headset is also stylish, light and comfortable. The product's features include crystal clear audio, a noise-cancelling microphone and hearing protection. The ear cushion is made of soft faux leather which is comfortable and easy to replace. The microphone boom arm and headband are adjustable. Calls can be managed using the USB controller on the cord along with volume adjustment and mute function. The headset is a Plug & Play device which is ready to use immediately after connecting.
